This is just a demo file.

execute

doctoolchain <docDir> generateHTML

or

doctoolchain <docDir> generatePDF

to start a first conversion. You will find the results in <docDir>/build

if it does not work, you probably haven't added doctoolchain to your path yet.

So add <doctoolchainDir>/bin to your path or execute the above

commands as <doctoolchainDir>/bin/doctoolchain ...
